

Purchasing Tickets

There are three steps to complete the purchase process:

1. Select Tickets

- Select the number of tickets you would like to purchase from the drop-down menu.

Click '**Continue**' once you've selected your tickets.

2. Buyer Information

- Enter your first name, last name and email. This email is where the tickets will be sent.

3. Payment Information

- This is the last step before checkout. Please provide your credit card information to purchase your ticket(s) - we require you to fill out your Card Number, Card Expiration Date, CVV (security code), and postal code.

- We accept all major credit cards, including Visa, MasterCard, and American Express.

- Double check your email address here. The final window will display the email where your order confirmation will be sent.

- Click '**Checkout**' for the order to be processed.

- The ticket widget will appear to be loading with a rotating circular ring.

- If successful, you will be shown a purchase confirmation screen on the widget. You then have the option to download, view, or print your ticket.

- You will also be able to access your ticket via your Universe account in your dashboard.

Your tickets will now be emailed to you and can also be accessed on your Universe account. Please note, tickets are not reserved even if you enter the purchasing process. We cannot guarantee your tickets until you have completed the entire checkout process and see the order confirmation screen. As such, we recommend that you come prepared and complete the purchasing process as soon as possible.
